

# Blue Peter Make an Origami Bunny

## You will need

- ✓ 1 x piece of paper
- ✓ Decorations including googly eyes, pipe cleaners, cotton wool and coloured paper

## Introduction

Make this super cute origami bunny using just one piece of paper! Don't forget to take a picture and send it to us at [bluepeter@bbc.co.uk](mailto:bluepeter@bbc.co.uk)

## Instructions

### Step 1

To make your bunny you will need a square piece of paper, if you only have A4 you can easily turn this into a square.

### Step 2

Do this by taking one corner and pulling it to the other side until it meets. You will then be left with a rectangle at the bottom, cut this off.

### Step 3

You will now be left with a triangle like this.

#### Step 4

Then fold in half again to make an even smaller triangle.

#### Step 5

Open up your triangle so it looks like this with a crease line down the middle.

#### Step 6

Take the bottom of the triangle and fold it over a couple of centimetres so it looks like this (a bit like a boat!).

#### Step 7

Take the tip and fold it downwards a couple of centimetres so the point lines up with the centre crease.

#### Step 8

Take one of the bottom corners and pull it towards the top and line it up with the middle crease so it looks like this.

#### Step 9

Then do the same to the other side.

#### Step 10

Then grab the bottom point and fold it upwards a couple of centimetres, this will enable your bunny to stand up.

#### Step 11

Turn your bunny over and it should look a little like this.

#### Step 12

Now you can decorate your bunny how you like. We have added a nose with cotton wool and some whiskers with pipe cleaners and topped it off with some googly eyes! Happy Easter!
