METHOD

1. Place the vanilla ice cream, banana, chocolate powder, milk, ice into a blender and blend until smooth. Ask an adult to help you when using the blender.
2. Drizzle the inside of 2 large milkshake glasses liberally with a layer of chocolate sauce
3. Pour the milkshake into the glasses and place a scoop of chocolate ice cream on top of each.
4. Break a corner off the chocolate chip cookies (to allow space for the straw to go into the milkshake) and place over the top of the glass. Top with lots of squirty cream and decorate liberally with doughnuts, brownies, chocolate flakes, marshmallows, sprinkles, freeze dried raspberries and halved strawberries or raspberries.
5. Drink straight away with a straw.
