

Starry Nightlight Jar

You will need

- ★ Plastic jar
- ★ Tin foil
- ★ Sharp pencil or a pen
- ★ A magazine or piece of foam
- ★ Torch/ LED light
- ★ Sticky tape
- ★ Decorations, e.g. stickers, ribbon, tissue paper

Introduction

Have fun making this twinkly starry nightlight jar.

Instructions

1

Make sure your jar is empty, clean and dry. Ask a grown-up to cut a piece of tin foil large enough to cover the inside of the jar.

2

Lay the tinfoil on a magazine or piece of foam to protect your table and carefully pierce the tin foil with a pencil to make lots of small holes.

3

Place the tinfoil inside the jar, pressing it to the sides to cover them completely. Secure it in place with some sticky tape.

4

Decorate the outside of your jar however you wish.

5

Turn on your torch or LED light and place it inside the jar. Secure the jar lid..

6

Close your curtains to make your room dark and see your nightlight jar glow!
