

Indoor Teepee

You will need

- ★ 4 long wooden dowels, garden canes or bamboo sticks
- ★ An old bed sheet
- ★ Rope
- ★ Washing line pegs
- ★ Cushions or pillows

Introduction

Have fun playing in this easy to make indoor teepee.

Instructions

1

Gather the four dowels (or garden canes or bamboo sticks) together. Using the rope, tie the dowels together tightly at one end, a little way from the top.

2

Stand the canes upright and hold them at the top. Spread the bottom of the canes out widely so the frame stands up on its own.

3

Drape the bed sheet over the frame, leaving a gap for the doorway. Clip the bedsheet to the canes with pegs to hold it in place. Place cushions inside and enjoy playing in your teepee.
