

Christmas Tree Decorations

You will need:

- The Bing character templates below
- Glue
- Safety scissors
- String or thin ribbon (8 strips, around 7cm long)
- Paint, colouring pens, glitter... or anything to add colour to your decorations!

When Christmas is drawing near and it's cold enough to make frosty dragon breath outside, you could cosy up indoors with your Bingster and make your very own

Bing and friends Christmas tree decorations.

Instructions:

Step 1. First of all, cut out the Bing character shapes from the template. There are two sides for each character.

Step 2. Put some glue on the blank side of each character. Then press the two ends of a piece of string or ribbon onto one of the sticky sides to make a loop, so you can hang up your decoration.

Step 3. Then stick the other side of the character down, matching the edges and sealing in the ends of the ribbon or string loop to make your first Bing tree decoration!

Step 4. You can repeat the steps above to make more decorations.

Step 5. Now your Bingster can enjoy adding whatever they like to make each decoration all sparkly and Christmassy! You could try adding glitter, using gold pens and a few stickers!
