

Let's Celebrate **Diwali Lantern**

You will need

A4 paper or card

Glue

Scissors

For decoration...

glitter, pens, pipe
cleaners or stickers

Remember to ask
a grown-up for help

1

Fold the paper in half.

2

With help from a grown-up, cut slits
across the paper using a pair of
scissors leaving 4cm gaps at the top.

3

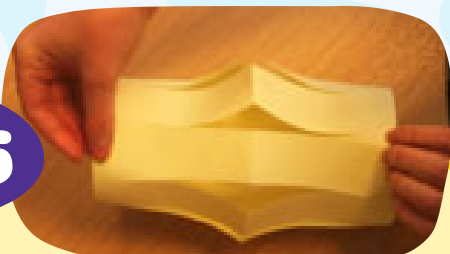

Unfold the piece of paper to see the
full length lantern design.

4

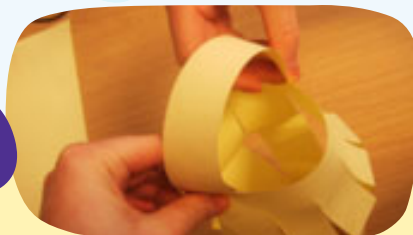

Place glue down on one of the
shorter sides, making sure the
paper is the 'right' side up.

5

Roll the paper into a cylinder shape
and lightly press down the glued side
to hold the lantern in place.

6

To make the handle, cut a strip of
paper out and glue the ends to the
top of the lantern. You can decorate
your lantern however you want to.
